

STRATIFICATION ÉCOFORESTIÈRE

Table with 5 columns: Code, Description, $\geq 7m$, $\geq 10m$, Réproductif, Non forestier. It lists various forest codes and their corresponding characteristics.

Table titled 'Exemple d'appellation' showing a grid of codes and their corresponding 'Tm de hauteur' and 'Réproductif' values.

TYPES DE COUVERT ET ESSENCES SELON LE PROGRAMME D'INVENTAIRE

Table defining forest types: RÉSERVILUX, RÉSERVILS, and MÉLANGES. It includes descriptions and lists of tree species codes for each type.

INDICES DENSITÉ-HAUTEUR

Table showing density and height indices for different forest types, categorized by density classes (A, B, C) and height classes (1, 2, 3).

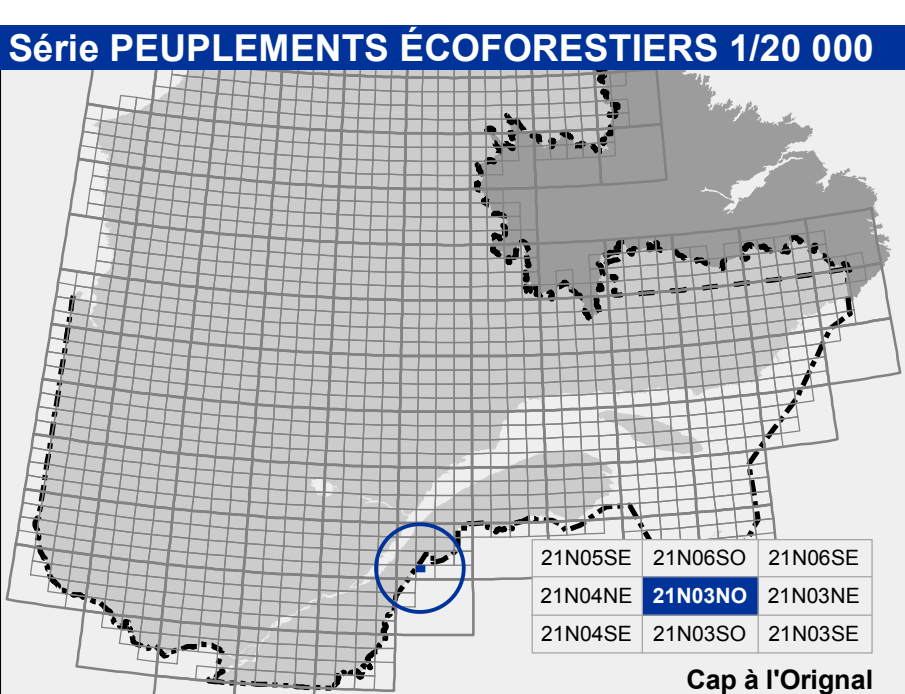

CLASSES D'ÂGE

Table showing age classes and their corresponding volume and area metrics.

Table titled 'PERTURBATIONS D'ORIGINE' and 'INTERVENTIONS PARTIELLES'. It lists various forest disturbance types and the corresponding management interventions.

TERRAINS FORESTIERS

Table defining terrain types (D, A) and slope classes (A, B, C, D, E) with their respective designations and inclination values.

Legend for 'Voies de communication et ponts' showing symbols for roads, bridges, and other infrastructure.

Legend for 'Hydrographie écoforestière' showing symbols for permanent water courses, intermittent water courses, and topographic hydrography.

Legend for 'Peuplement écoforestier' showing symbols for forest types: ecoforest, non-forest, and non-productive forest.

Legend for 'Courbe de niveau' and 'Mésodonées', showing symbols for contour lines and elevation data.

Legend for 'Mésodonées' providing technical details about the data source, projection, and scale.

Legend for 'Sources' and 'Informations forestières', providing contact information and project details.
