

Paramètres utilisés pour la cartographie. Table with columns: Code, Désignation, et des indicateurs (C1m, C2m, Hydroscop, Non forestier).

Exemple d'appellation. Table showing how codes are combined to create specific forest names.

TYPES DE COUVERT ET ESSENCES SELON LE PROGRAMME D'INVENTAIRE

SELAGNIERS: Couverture couverte par 75% de la surface terrière totale occupée par les essences herbacées.

RESAUX: Couverture couverte par 75% de la surface terrière totale occupée par les essences feuillues.

MELANGES: Couverture couverte par les essences feuillues et résineuses occupant respectivement plus de 25% et plus de 75% de la surface terrière totale.

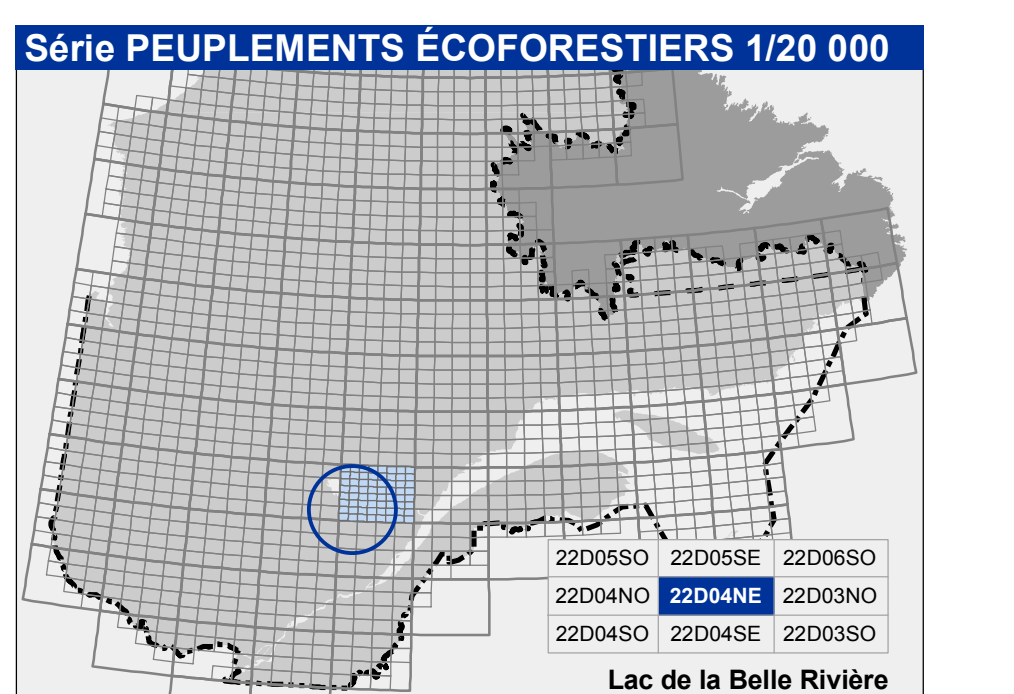

Table listing forest codes, species names, and their corresponding codes in different programs.

INDEXES DENSITE-HAUTEUR. Table with columns: Classe de densité, Hauteur moyenne des tiges dominantes et codominantes.

CLASSES D'AGE. Table showing age classes and their corresponding ranges in years.

Table mapping codes for perturbations (disturbances) and partial interventions (partial treatments).

TERRAINS FORESTIERS and CLASSES DE PENTE. Tables defining forest terrain codes and slope classes.

Legend for the map, including symbols for communication routes, hydrography, obstacles, and forest types.

Legend for forest types, including codes for production, non-production, and mixed-use forests.

Legend for contour lines, including symbols for water level, mean annual water level, and mean sea level.

Legend for meadows and other terrain features, including symbols for surface and water level meadows.

Legend for map scale, including a graphical scale bar and a north arrow.

Metadata section including project details (22D04NE, 22D04-200-0202), author, date, and contact information.
