

STRATIFICATION ECOFORESTIERE

Table with 5 columns: Code, Description, T1m, T2m, Hydrologie, Non forestier. It lists various forest codes and their characteristics.

Table titled 'Exemple d'appellation' showing how codes are combined into a final name, such as 'JN EC 9 C'.

TYPES DE COUVERT ET ESSENCES SELON LE PROGRAMME D'INVENTAIRE

SELEXAUX: Peuplement dont plus de 75% de la surface terrière totale est occupée par les essences sélectives.

FEUILLES: Peuplement dont plus de 75% de la surface terrière totale est occupée par les essences feuillues.

MELANGES: Peuplement dont les essences feuillues et résineuses occupent respectivement plus de 25% et plus de 75% de la surface terrière totale.

Table with 3 columns: CODE ESSENCES FEUILLES 1, CODE ESSENCES FEUILLES 2, CODE ESSENCES FEUILLES 3. It lists specific tree species codes.

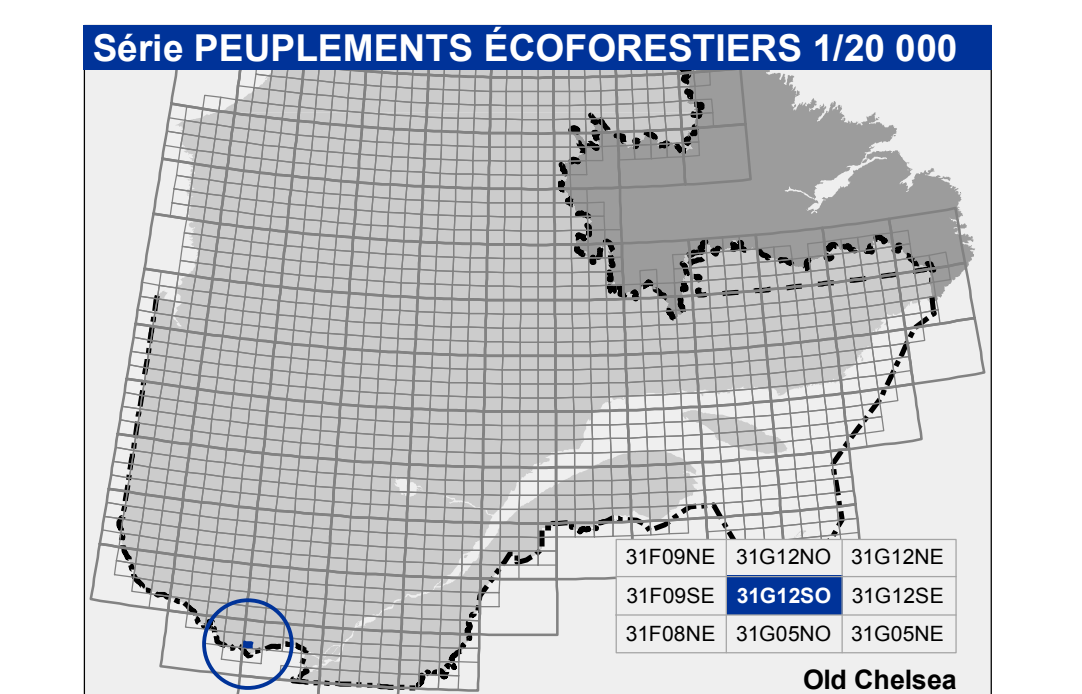

(1) Carpin, Chêne, Filaire, Hêtre, Noyer, Orme, Pin, Sapin, Mélèze, Épicéa, Douglas, Tilleul, Frêne, etc.

Table titled 'INDICES DENSITE-HAUTEUR' showing density and height indices for different forest types.

Table titled 'CLASSES D'AGE' showing age classes and their corresponding volume and area.

Table with 2 columns: CODE PERTURBATIONS D'ORIGINE and INTERVENTIONS PARTIELLES. It lists various types of disturbances and management interventions.

Table with 2 columns: TERRAINS FORESTIERS and CLASSES DE PENTE. It lists forest types and slope classes.

Legend for various symbols used on the map, including communication routes, hydrography, obstacles, and forest types.

Legend for forest types and management zones, including codes for different forest types and management zones.

Legend for contour lines and marshes, including symbols for different types of contour lines and marshes.

Legend for management zones, including codes for different management zones and their characteristics.

Legend for sources and information, including codes for different sources and information types.

Legend for terrain types and slope classes, including codes for different terrain types and slope classes.
