

STRATIFICATION ÉCOFORESTIÈRE

Table with 5 columns: Code, Description, T1m, T2m, Hauteur, Non forestier. Includes a sub-table for 'Exemple d'appellation' showing combinations of codes and their corresponding height and non-forestier status.

TYPES DE COUVERT ET ESSENCES SELON LE PROGRAMME D'INVENTAIRE

Table defining forest types: MÉLANGEUX (more than 75% surface), PÉDUNÉS (more than 75% surface), and MÉLANGES (more than 25% surface). Includes a list of tree species codes and their descriptions.

INDICES DENSITÉ-HAUTEUR

Table with 4 columns: Classe de densité, Classe de hauteur, and two columns for density/height indices. Includes a note about information provided in the map's legend.

CLASSES D'ÂGE

Table with 2 columns: PEUPLLEMENTS ÉTAGES and PEUPLLEMENTS STAGES, showing age classes and their corresponding forest types.

PERTURBATIONS D'ORIGINE

Table with 2 columns: PERTURBATIONS D'ORIGINE and INTERVENTIONS PARTIELLES, listing various types of disturbances and partial interventions.

TERRAINS FORESTIERS

Table with 2 columns: TERRAINS FORESTIERS and CLASSES DE PENTE, listing forest terrain types and slope classes.

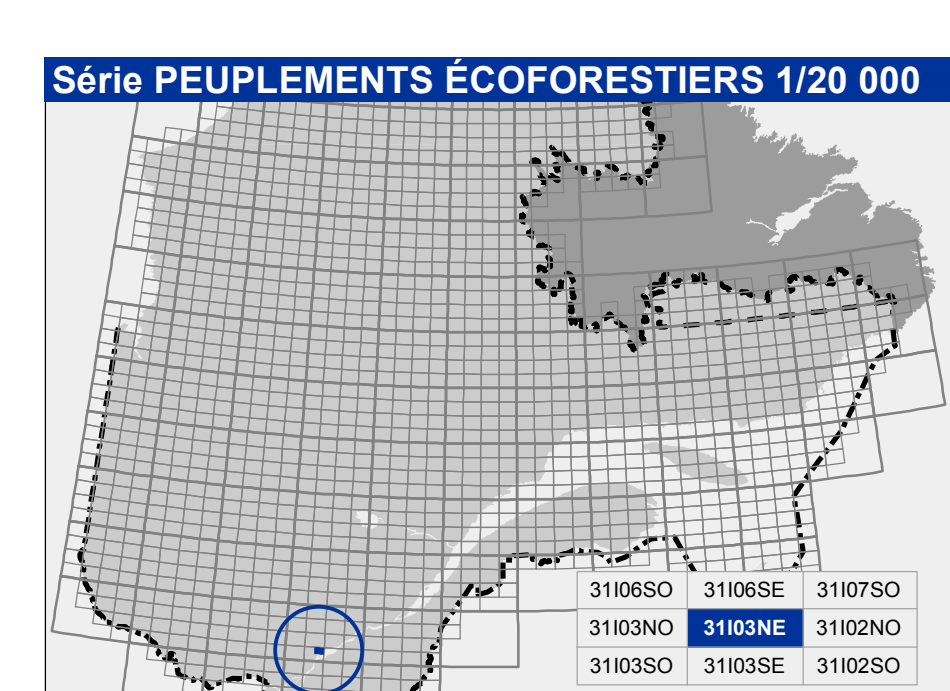

Table titled 'Voies de communication et ponts' listing various road and bridge types and their corresponding symbols on the map.

Table titled 'Hydrographie écoforestière' listing various hydrographic features like rivers, streams, and ponds, along with their symbols.

Table titled 'Peuplement écoforestier' listing different forest types and their corresponding symbols.

Table titled 'Courbes de niveau' listing contour lines and their corresponding symbols.

Table titled 'Métadonnées' providing technical details about the map, including coordinates, scale, and projection.

Table titled 'Sources' listing the data sources for the map, including the Forest Inventory and Management (FIM) and the Quebec Forest Inventory (QFI).

Table titled 'Informations forestières' providing general information about the forest, including its location, area, and management objectives.
