

STRATIFICATION ÉCOFORESTIÈRE

Paramètres utilisés pour la cartographie

Table with columns: Code, Description, Type de hauteur, Hauteur, Non forestier. It lists various forest codes and their corresponding characteristics.

Table titled 'Exemple d'appellation' showing how different codes are combined into a final map label.

TYPES DE COUVERT ET ESSENCES SELON LE PROGRAMME D'INVENTAIRE

SELEXAUX: Couverture plus de 75% de la surface terrière totale occupée par les essences forestières.
FEUILLES: Couverture plus de 75% de la surface terrière totale occupée par les essences feuillues.

MÉLANGES

Couverture plus de 25% de la surface terrière occupée individuellement par plus de 25% de trois ou plus des essences forestières.

Table listing forest species codes and their corresponding tree types (e.g., Résineux, Feuillus).

Notes regarding specific species codes and their geographical locations.

INDICES DENSITÉ-HAUTEUR

Table showing density and height indices for different forest types, categorized by density classes.

Information regarding the source of the data for the density and height indices.

CLASSES D'ÂGE

Table showing age classes for different forest types, categorized by age ranges.

Information regarding the source of the data for the age classes.

PERTURBATIONS D'ORIGINE

Table listing various types of disturbances and their origins, such as fire, insects, or human activity.

INTÉRIEURS PARTIELLES

Table listing partial interior types and their descriptions.

INTÉRIEURS D'OSIGINE

Table listing interior types and their descriptions.

PERTURBATIONS MOYENNES

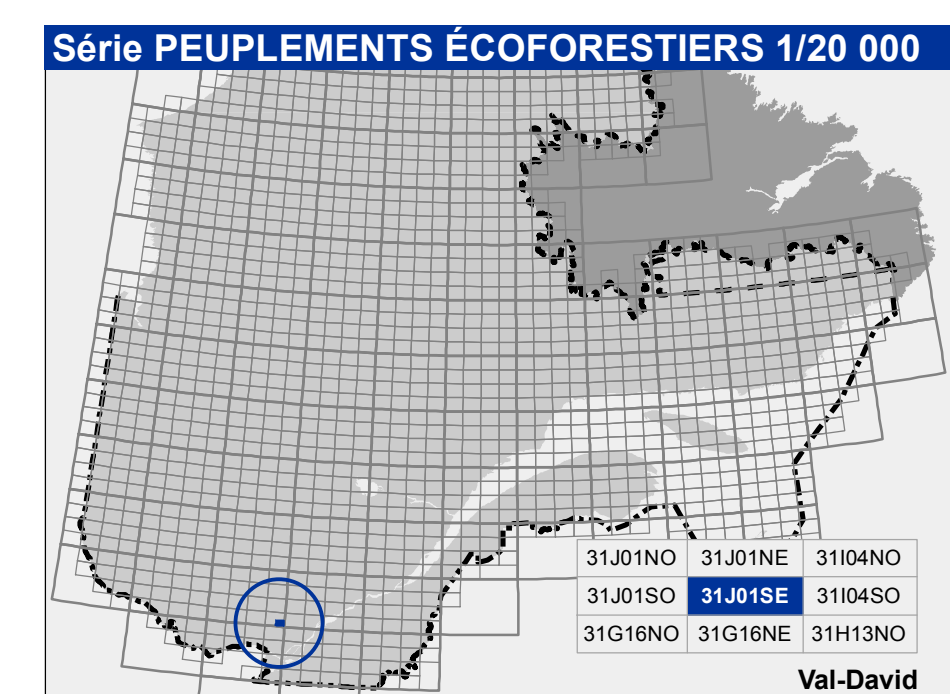

Table listing average disturbance types and their descriptions.

TERRAINS FORESTIERS

Table listing forest terrain types and their descriptions.

CLASSES DE PENTE

Table listing slope classes and their descriptions.

Legend for communication and points, including symbols for roads, trails, and other infrastructure.

Legend for hydrography and obstacles, including symbols for rivers, lakes, and various types of barriers.

Legend for eco-forest cover, including symbols for different types of forest cover and their characteristics.

Legend for contour lines and marshes, including symbols for different types of elevation lines and wetland areas.

Legend for midlines, including symbols for various types of linear features and their descriptions.

Legend for sources, including symbols for different types of data sources and their descriptions.
