

STRATIFICATION ECOFORESTIERE

Table with columns: Type de couvert, Description, % Tm, % Im, Improductif, Non forestier. Rows include codes like 1000, 2000, 3000, etc.

Table with columns: Type de couvert, Description, % Tm, % Im, Improductif, Non forestier. Rows include codes like 4000, 5000, 6000, etc.

TYPES DE COUVERT ET ESSENCES SELON LE PROGRAMME D'INVENTAIRE

Improductif est plus de 75% de la surface totale occupée par les essences résineuses.

ESSENCES Résineuses: Improductif est plus de 75% de la surface totale occupée par les essences feuillues.

MELANGES: Traitement des essences feuillues et résineuses occupent cumulativement plus de 25% et plus de 75% de la surface totale.

Table with columns: CODE ESSENCES Résineuses, CODE ESSENCES Feuillues, CODE ESSENCES Feuillues et Mélange. Rows list various tree species codes.

1) CODES COUVERT: Résineuses, Feuillues, Mélange, Non forestier, Eau, Ne pas classer.

INDICES DENSITE-HAUTEUR

Table with columns: Classes de hauteur, Indices de densité, Indices de hauteur. Rows show density and height indices for different classes.

*) Information provenant d'imagerie satellitaire.

CLASSES D'AGE

Table with columns: REPLEMENTS ETAGES, Classes d'âge (10-20, 20-30, etc.), Valeurs moyennes ou médianes.

PERTURBATIONS D'ORIGINE

Table with columns: CODE, Description, Interventions, Interventions moyennes. Rows list various disturbance and intervention codes.

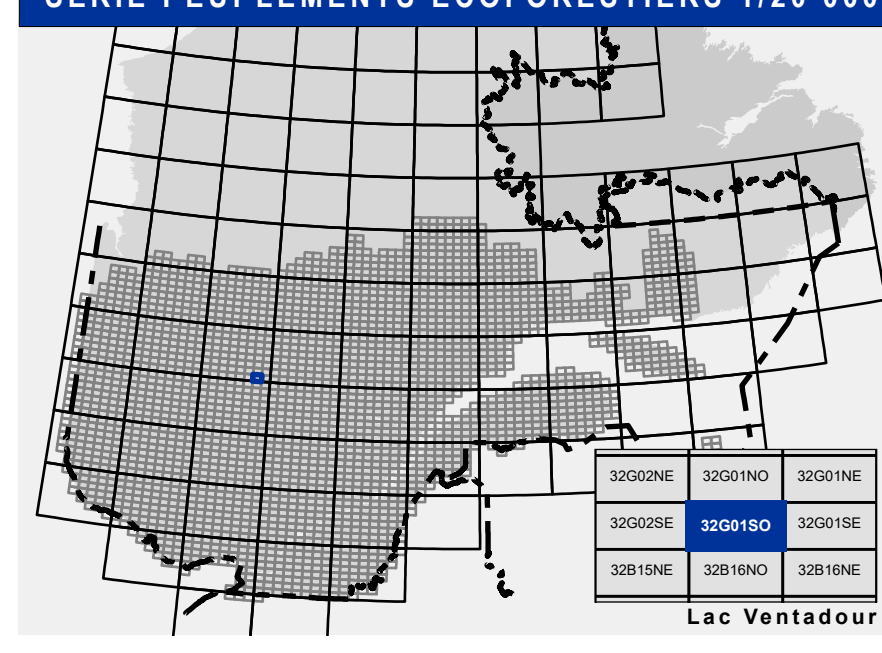

TERRAINS FORESTIERS IMPRODUCTIFS

Table with columns: CODE, Désignation, Taux d'inclinaison. Rows list terrain codes and their slopes.

CODE NON FORESTIER

Table with columns: CODE, Désignation. Rows list non-forest codes like agriculture, urban, etc.

SERIE PEUPLEMENTS ECOFORESTIERS 1/20 000

Legend for communication routes, hydrography, and other features. Includes symbols for roads, rivers, and points of interest.

Legend for obstacles and infrastructure. Includes symbols for buildings, dams, and other structures.

Legend for contour lines and forest types. Includes symbols for contour lines and different forest categories.

Legend for matadonnées (metadata). Includes symbols for geodetic systems and coordinates.

Legend for sources and information. Includes symbols for data sources and program details.

Legend for realization and avvertissement (warning). Includes symbols for production and legal notices.

Legend for non-forest codes. Includes symbols for various non-forest categories.

Legend for terrain forest codes and slope classes. Includes symbols for terrain types and slope ranges.
